

Visual Lease Services, Inc. (VLS) is privileged to receive five new contracts to perform oil and gas valuation. The five counties that decided to go forward are Cimarron County, Woods County, Texas County, Cleveland County, and Stephens County.

Boise City, the seat of Cimarron County, was founded in 1908. Becky Walker is the current Assessor and has held office since 1982. The county previously hired (VLS) to value the companies that rendered their assets and decided this year to implement the GIS, GPS, and discovery process on oil and gas property. The contract became final as of July 2, 2001.
