Woods County Assessor Monica Schmidt attended the county commissioners meeting Friday to see approval of a contract for a website.

Schmidt said people logging on to Woods.okassessor.com will find general information from that office. For a user subscriber fee, people can access assessor records.

Schmidt said this will be a financial savings and convenience for appraisers who now travel to Alva to seek the information. The commissioners approved the contract with Visual Lease Services, Inc., of Holdenville which is for \$200 per month.

This contract established public access to the county assessor's CAMA, AA and tax data through an easy-to-use Internet site.

The commissioners approved monthly reports for the sheriff's office including: \$1,307.45, fee collections; and \$426.06, claim for prisoners.
